

Syllabus for Biology313L- Cell Biology Lab

Biology 313 LAB (Cell Biology)

Course Time: Tues 2:00-5:00, Wed 2:00-5:00, or Thur 2:00 to 5:00, MUSC 403

Instructor: Dr. Mark D. Lazzaro (lazzarom@cofc.edu), 843-953-7180

Office Hours: After lecture, before lab, or by appointment. Unfortunately Dr. Lazzaro's office is 2 miles from campus at 645 Meeting Street because the Rita Hollings Science Center is being renovated. It's difficult to just drop by but we can meet on campus as needed.

Course Objectives and Learning Outcomes:

In this lab you will gain first hand experience with techniques commonly used in cell biological research including quantitative microscopy, histochemistry, spectrophotometry, cell fractionation and centrifugation, organelle isolation, enzyme assays, and protein electrophoresis.

Co-requisite or pre-requisite:

Biology 313 (Cell Biology)

Requirements:

You MUST wear a lab coat in lab. There are NO EXCEPTIONS. There is NO FOOD OR DRINK in the lab. No sandals, perforated shoes, or high heels. Wear gloves and goggles when instructed to do so. Wash your hands when you leave the lab. We follow the College lab safety policy posted on OAKS.

Lab procedures are available on the course website. You need to download and read the lab **BEFORE** you come in. It's a good idea to put all your lab stuff in one notebook.

Here's how to get to the course website to download the lab protocols.

- 1) Go to OAKS
- 2) Select this class
- 3) Click on CONTENT

| Date | Topic | Report Due |
|---------------------|--|------------|
| January 12, 13, 14 | Organizational Meeting | |
| January 19, 20, 21 | Lab 1- Microscopy | |
| January 26, 27, 28 | Lab 2- Histochemistry | Lab 1 |
| February 2, 3, 4 | Lab 3- Enzyme activity in Mitochondria | Lab 2 |
| February 9, 10, 11 | Lab 4- Photosynthesis in Chloroplasts | Lab 3 |
| February 16, 17, 18 | Lab 5- Spectrophotometry of DNA | Lab 4 |
| February 23, 24, 25 | Lab 6- Cell Fractionation | Lab 5 |
| March 1, 2, 3 | Lab 7- Gel Electrophoresis (SDS-PAGE) | |
| March 8, 9, 10 | SPRING BREAK | |
| March 15, 16, 17 | Lab 8- Western Blots | |
| March 22, 23, 24 | Lab 9- Analyzing results of Labs 7-9 | |
| March 29, 30, 31 | Lab 10- Mitosis | Labs 6-9 |
| April 5, 6, 7 | Student Literature Presentations | Lab 10 |
| April 12, 13, 14 | Student Literature Presentations | |
| Tuesday April 26 | 4-6 PM LAB FINAL EXAM (Comprehensive) | |

Syllabus for Biology313L- Cell Biology Lab

How to do well in this lab:

This is an upper division lab. I expect you to come to lab prepared, work hard, and actively participate in the experiments. Attendance at labs is required. Since it is difficult to prep the labs again, you will need a valid, approved excuse before I will let you make up a lab. A good way to come to lab prepared is to make a flow chart in your notebook detailing how you will run through the lab. This is especially important in some of the later labs, where we will be running gels and isolating cell fractions. These labs have several steps, so you need to be organized.

Grading:

Grades for this course are determined from lab quizzes, written reports, your literature presentation, and the final exam.

Lab quizzes (50 total points). At the beginning of labs 1-10, there will be a brief quiz to test whether you have read the protocol and are prepared for lab. Each quiz is worth 5 points.

Single lab reports (200 total points). Reports demonstrate your completion and understanding of the lab material. Lab reports are due at the beginning of the following lab and are worth 20 points each. There is a 5-point penalty, per day, for late reports.

Literature presentation (25 points). Each student will make a 10-minute presentation on a topic in cell biology based on the primary research literature. Details on this project are in the lab procedure. You must select your paper and get it approved during LAB 9.

Lab FINAL EXAM (50 points). The cumulative lab final will test your understanding of labs by asking you to design experiments and analyze results. You will **NOT** do well on the exam if you routinely come to lab unprepared and let your lab partner do all the work.

Grades:

Your final grade is determined as a percentage of the 325 total points as follows:

| | | | |
|----|--------|----|-------|
| A | 96-100 | C | 70-74 |
| A- | 90-95 | C- | 68-69 |
| B+ | 85-89 | D+ | 65-67 |
| B | 80-84 | D | 60-64 |
| B- | 78-79 | D- | 56-59 |
| C+ | 75-77 | F | 0-55 |

Student conduct in this course is governed by the College of Charleston Honor Code.

If you will require special accommodations to complete any of the reading, speaking, or writing requirements for this course, please come and see me as soon as possible.
